*Tips on the selection of  
music for your event....*

If you wish you may review the song list and highlight some of your favorites. This is not required, however many clients prefer to do this as a means of informing us of your general tastes in music and an idea of your specific audience requirements.

If you wish to pass on this option, rest assured I will be reading your crowd as the performance goes along and making the best choices for each particular moment of your reception. I feel it is of the greatest importance to select the “right song at the right time”.

I have more than 25 years experience as a bandleader and can instantly recognize what each event’s needs are and I’m sensitive to the “vibe” of every audience for whom I perform. I never proceed to the bandstand with a preconceived set of songs to play. I believe we must remain watchful of each moment and flexible to change on a dime if needed. Therefore I always call the tunes as I go along from song to song. I also feel this gives your reception a pacing and variety that is never exactly duplicated from one function to the next.

You will also notice on page 2 of your “bridal line up sheet” that there is a space provided for your specific song requests. I call these the “must haves”. Here you may pick a few songs from our list that you definitely want to have performed.

Our song list represents only a portion of all the dance music I have performed in my career so far. If there is a song you are interested in but don’t see on the list then just give me a call or a quick email and I will let you know if we play them already. The song list is provided to let you know that we perform a wide variety of music from many different styles. This has long been one of our trademarks.

Last but not least, we work very hard on arrangements, orchestration and rehearsals of our songs to best showcase our sound, versatility and most of all crowd appeal. I prefer to draw from the bulk of those selections so that we may present our songs with the highest possible standards.

I hope you find this helpful with your planning. Feel free to contact me with any further questions you may have.

Warm regards,  
Mark Greel
